

VEHICLE CCTV

Intelligent CCTV

Our award winning camera systems can be installed on any vehicle to give your fleet and company assets **complete protection**.

Powerful DVRs coupled with durable HD cameras and intuitive software eliminate vehicle blind spots and improve driver's road visibility.

We **consult and rigorously test all our systems** with top UK fleet operators to ensure maximum performance of all components.

Why Choose us?

- 
All our system installations are carried out to strict standards by **Certified Auto Electricians** preserving manufacturer warranties.
- 
All our systems are fully approved and compliant with FORS, CLOCS, Crossrail, RHA, Fitas Patrons, FTA and Crown Commercial Services.
- 
Customer service & support are a **top priority** for us. Get in touch to speak to one of our experts today.

Illustrative example of a typical EXEROS vehicle CCTV system installation:

Illustrative example of a typical haulage vehicle safety system installation

1. Front facing camera
2. Nearside camera
3. Offside camera
4. Rear/Reversing camera
5. LCD screen
6. DVR unit

Our vehicle CCTV systems are specifically built and designed for commercial, specialist, HGV and LCV vehicles.

Typical EXEROS vehicle CCTV system includes advanced DVR unit, cameras, switch box/sensors, LCD screen and dedicated software. Exeros DVR units can remotely download and live stream video footage, giving fleet operators real-time control.

All systems come with accident sensors and event tagging functionality, triggering video capture and saving footage automatically upon the impact to the vehicle.

Key benefits include:

- ✓ Complete fleet & assets protection
- ✓ Elimination of vehicle blind spots
- ✓ Real-time vehicle tracking
- ✓ Reduced accident rate
- ✓ Reduced fleet operating costs & insurance premiums
- ✓ Nationwide installation and support
- ✓ Dedicated fleet tracking software
- ✓ 3 Year warranties available
